CAME NEAR DYING CLUB DOING

From an Awful Skin Humour, Scratched Till Blood Ran. Wasted to Skeleton.

CURED BY CUTICURA

One Application Soothed Him to Sleep. Cure Speedy and Permanent.

"When my little boy was three months old his head broke out with a rash, which was very fichy and ran considerable watery fluid. We tried everything we could, but he got worse all the time till it spread to his srme, legs, and then to his entire body, and he came near dying. It itched so he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to keep him from tearing his skin. He got so weak he took fainting spells and we would think him dying. He was almost a think him dying. He was almost a skeleton and his little hands were

thin like claws.
"He was had about eight months when we tried Cuticars. I had not laid him down in his cradle in the daytime for a long time. He had got so that he just slept in our arms all

INSTANT RELIEF

"I washed him with Cuticura Soap and put on one application of Cuti-cura Ointment and he was so soothed that I put him in the cradle. You don't know how glad I felt when he felt better. It took one box of Cuticura Ointment, poetly near one cake of Cuticura Scap, and about half a bottle of Cuti-curs Resolvent, to cure. I think he would have died only for the

Mus. M. C. MAITLAND, Jasper, Ont. No return in 14 years: Mrs. Maitland writes, under date of Feb. 24, 1903; "It affords me pleasure to inform you that it is fourteen years since my boy was cured of the terrible skin discuse. He has been permanently cured and is hearty and strong."

Railways,

UNIFORMS

Superintendent For South Park Recomended Northwest Railroad Proposition On The Hook.

The commercial club held another of its soni-stirring meetings Friday night. President Riddle being absent Vice President L. B. Campbell presided.

The various committees were called to report, but many were absent altogether and others had no report to make. It was deemed advisable to send a chaser after the law committee; and Attorney J. B. Turner was appointed to round the gentlemen up and get them! into shape to appear at the next session, which he agreed to

The road committee was instructed to purchase a half car of bridge lumber and money was appropriated to pay for same.

The railroad committee was requested to report as to the whereabouts of the the Vinita & Northwestern railroad, it being one of the "Articles of faith"or a part of the covenant which the members entered into and promised themselves to secure during the coming year.

an explanation. After offering a few to the wonderment of the faithful few | Sc. At Wimer Drug Co. who were still listening, with that hope which springs eternal within the human breast, Avery made good by saying that three railroad men were here now and had had their engine-or over the road once already. J. W. Orr reached for his hip pocket as though he would pull a gun, but hesitated until Avery concluded his remarks and then he stepped up and knocked a home run by declaring that he had a letter from a gentleman who would be bere in a few days to build said road. This started a merry go round and everytody took a swatreliterature concerning at the railroad proposition and not road but started in on the M., O. & G. railroad and even got up nerve Pas enger Traffic Department enough to send a committee to see President Kennetick and challenge him to meet with the club.

After scoring this run by accident. the buys got more confidence in themselves and began to place their bina. Dr. Fortner, who is always good for

The club tendered its services to Mr. Kodama, Who Laid Out the Reduc- Harsh Treatment Causes Them to Act Like Highly Nervous Human Beinge.

According to an expert in the botania brains of new Japan, mobilizer of the gardens at Washington, recent experimikado's armies, directing the des ments there tend to confirm the theory DeWitt's Little Early Risers, the tiny of his people militantly, writes that plants are possessed of nerves and Active On Bridge, Roads and famous little pills, have been made Richard Barry, in Everybody's Maga. that some species are irritable and nerv-

The genus mimosa comprises about 100

In certain of the plants the ends of the nerves have been located. Thus, if mimosa pudica is touched with everso fine a point at the case of a pinus or along its axis, the most remote pair of leaves will shiver and begin to close, Finally, when all the leaves have closed the pixua which has been touched will droop. The shock has been so great that the whole nervous system has been temporarily disarranged. However like all nervous trittable people, there is a point beyond which fright reacts and a control of the system begins to manifest itself. If the sensitive plant is shaken for some time it recovers from its attack of neurasthenia and some of the leaves will begin to open again.

Finally, it is said that the most squartive part of the plant is at the base of the secondary leaf statks, where an immense number of nervous corpuscies or delicate tissues are located.

HANGED AN UNKNOWN MAN

One of the Most Curious Cases in the Annals of Montana Criminals.

"The most dramfille incident I ever witnessed occurred in the county courthouse in my town," said Judge F. H. Woody, a primitout lawyer of Missouta, Mont. according to the Washington

"A desperado, and perhaps a professional burglar-though that was never proved-shot down two young residents of the town early in the morning of Au Challand and just when the rairoad troubles are specify oured by German -- has never been equaled with but one of the town early in the morning of Australia about to go under, and much Syrun.
